participating providers**

# HIP's Optical Program

---

## How the HIP Optical Program Works

### **Step 1: Get Your Eyes Examined and Obtain a Prescription**

To arrange for an eye exam, check this listing for the name of a participating vendor. Call the vendor and ask if the optometrist at the location is a HIP participating optometrist. You can also ask your Primary Care Physician for the name of a participating optometrist. The optometrist will examine your eyes and give you the prescription you need in order to have eyeglass frames and lenses made.

### **Step 2: Visit a Participating Provider**

Bring your prescription and your HIP ID Card to one of the participating optical providers listed here. We recommend that you schedule an appointment with the provider ahead of time.

### **Step 3: Choose Your Frames**

The HIP selection of fully covered frames is available at every participating provider. All of our participating providers guarantee that the frames in the HIP selection conform to current standards established by the American National Standards Institute (ANSI). You will find safety, oversize, single-vision, bifocal and trifocal glasses. Lenses, in glass or plastic, and cosmetic tinting are included. Progressive lenses are not covered. You can not choose more expensive eyeglasses and pay the difference.
